**Accurate as of: 5 February 2024**

## What is this product?

### Type

This product is an investment fund.

### Term

The Fund is established for an unlimited duration, with the possibility for the Board of Directors to decide the termination of the Fund at its sole discretion.

### Objectives

The Fund seeks to increase the value of its assets over the long term by investing predominantly in transferable equity securities such as equities, other equity shares such as co-operative shares and participation certificates issued by, or warrants on transferable equity securities of companies which are domiciled worldwide and which are active throughout the environmental value chain.

Selection of investments will rely on a combination of financial criteria, as well as Environmental, Social & Governance criteria. The Fund promotes environmental and social characteristics and qualifies as an investment product in accordance with article 8(1) of Regulation (EU) 2019/2088 on sustainability related disclosures in the financial services sector. In that respect, the Fund applies a sustainable strategy which aims to achieve a positive environmental impact by investing mainly in companies with a low environmental footprint that contribute to solving global environmental challenges by providing products & services in the environmental value chain.

The investment process integrates ESG factors based on the proprietary and third-party research of the investment manager (including data from Sustainalytics and ISS, and in-house CFRA accounting and management quality).

The selection process includes the following steps:

- Exclusion filters: that exclude (i) companies and activities that are deemed to have a negative impact, on the basis of norm-based, sectoral exclusions and planetary boundaries indicators, (ii) companies that might have a negative impact on the environment and the society and (iii) companies involved in serious human rights and environmental damages and do not respect the planet boundaries. As part of the Fund manager Sustainable Investment Policy, the Fund complies with the sets of exclusions applying to article 8 investment product as described in the Book 1 and with the additional exclusions applied by the investment manager. The Fund will not invest in companies that have a strategic involvement in alcohol production.
- ESG integration; by integrating the ESG sustainability risk ratings, controversies and ISS Governance rating in the overall investment process in the company scores. This score determines the weights

of stocks in the portfolio. This weight is upward or downward due according to the sustainability risk considerations.

Both approaches described above are completed by a positive thematic screening: the Fund invests into companies that might have a positive impact, mainly in companies whose at least 20% of their activities (as measured by turnover, enterprise value, earning before income and tax, or similar metrics) are related to, for example but not limited to, energy efficiency, renewable energy, pollution control, water supply & technology, waste management & recycling, sustainable agriculture & forestry or dematerialized economy.

For assessing the good governance, the Social and Governance considerations are integrated in the scoring process. Companies scores are based on criteria such as business franchise, management quality, and financial attractiveness. In addition to scores from external parties, the Investment manager integrate its own evaluation into the score.

At least 90% of the sub-fund should be covered by the sustainability research and at least, the bottom 20% of issuers with lowest ESG characteristics are excluded.

Methodological limitations can be assessed in terms of: nature of ESG information (quantification of qualitative data), ESG coverage (some data are not available for certain issuers) and homogeneity of ESG data (methodological differences).

The minimum asset allocation in such securities on a consolidated basis (direct and indirect investments) will be of 60% of the Fund's net assets (after deduction of the Fund's cash). Moreover, the minimum ownership in equity securities will be of 75% of the Fund's net assets.

Investments in debt securities do not exceed 10% of its net assets.

The Fund may invest for maximum 10% of its net assets in funds that have been selected in accordance with a number of qualitative and quantitative criteria.

This Fund is actively managed and is compared to the MSCI World TR Net Index for performance and risk level indicator purposes. However, the reference to this index does not constitute any objective or limitation in the management and composition of the portfolio and the Fund does not restrain its universe to the index components. The index does not evaluate or include its constituents on the basis of environmental and/or social characteristics and is therefore not aligned with the ESG characteristics promoted by the Fund.

Therefore returns may deviate materially from the performance of the reference index.

The base currency of the Fund is EUR.

The unit is a distribution unit. Dividends will be paid annually.

Investors are able to redeem on a daily basis (on Netherlands bank business days).

Intended retail investor

This product is intended for investors who plan to stay invested for at least 5 years and are prepared to take on a medium level of risk of loss to their original capital in order to get a higher potential return. It is designed to form part of a portfolio of investments.

Practical information

**Custodian Bank** State Street Bank International GmbH, Amsterdam Branch.

**Further information** Further information about the Fund, the prospectus and the latest annual and semi-annual report may be obtained free of charge, in English, from the Management Company, the local agents or online at [www.abnamroinvestmentsolutions.com](http://www.abnamroinvestmentsolutions.com).

What are the risks and what could I get in return?

Risks

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

**What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.**

**The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.**

The stress scenario shows what you might get back in extreme market circumstances.

**Unfavourable:** this type of scenario occurred for an investment between July 2021 and July 2022.

**Moderate:** this type of scenario occurred for an investment between May 2016 and May 2021.

**Favourable:** this type of scenario occurred for an investment between October 2012 and October 2017.

Recommended holding period		5 years	
Example Investment		10,000 EUR	
Scenarios		if you exit after 1 year	if you exit after 5 years (recommended holding period)
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs Average return each year	4,520 EUR -54.8%	3,270 EUR -20.0%
Unfavourable	What you might get back after costs Average return each year	8,360 EUR -16.4%	9,300 EUR -1.4%
Moderate	What you might get back after costs Average return each year	10,430 EUR 4.3%	15,640 EUR 9.4%
Favourable	What you might get back after costs Average return each year	13,020 EUR 30.2%	18,080 EUR 12.6%

What happens if ABN AMRO FGR ABN AMRO Pictet Global Environmental Equities is unable to pay out?

If we are not able to pay you out what we owe you, you are not covered by any national compensation scheme. To protect you, the assets are held with a separate company, a depositary. Should we default, the depositary would liquidate the investments and distribute the proceeds to the investors. In the worst case, however, you could lose your entire investment.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario,
- 10,000 EUR is invested.

Example Investment 10,000 EUR	if you exit after 1 year	if you exit after 5 years (recommended holding period)
<b>Total Costs</b>	<b>713 EUR</b>	<b>1,167 EUR</b>
<b>Annual cost impact*</b>	<b>7.1%</b>	<b>2.6% each year</b>

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 10.7% before costs and 9.4% after costs.

## Composition of costs

One-off costs upon entry or exit		Annual cost impact if you exit after 1 year
<b>Entry costs</b>	<b>5.00%</b> of the amount you pay in when entering this investment.	<b>Up to 500 EUR</b>
<b>Exit costs</b>	<b>1.00%</b> of your investment before it is paid out to you.	<b>100 EUR</b>
Ongoing costs taken each year		Annual cost impact if you exit after 1 year
<b>Management fees and other administrative or operating costs</b>	<b>0.94%</b> of the value of your investment per year. This is an estimate based on actual costs over the last year.	<b>94 EUR</b>
<b>Transaction costs</b>	<b>0.19%</b> of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	<b>19 EUR</b>
Incidental costs taken under specific conditions		Annual cost impact if you exit after 1 year
<b>Performance fees</b>	There is no performance fee for this product.	<b>0 EUR</b>

## How long should I hold it and can I take money out early?

### Recommended holding period: 5 years

This product is designed for longer term investments; you should be prepared to stay invested for at least 5 years. However, you can redeem your investment without penalty at any time during this period, or hold the investment longer. Redemptions are possible on every bank business day in Luxembourg; it will take 2 working days for you to be paid. The price for the day, reflecting the actual value of the fund, is set each day at noon, and published on our website [www.abnamroinvestmentsolutions.com](http://www.abnamroinvestmentsolutions.com).

## How can I complain?

You can send your complaint to the fund's management company at 119-121 boulevard Haussmann, 75008 Paris, France or by e-mail to [aais.contact@fr.abnamro.com](mailto:aais.contact@fr.abnamro.com).

If you have a complaint about the person that advised you about this product, or who sold it to you, they will tell you where to complain.

## Other relevant information

**Cost, performance and risk** The cost, performance and risk calculations included in this key information document follow the methodology prescribed by EU rules. Note that the performance scenarios calculated above are derived exclusively from the past performance of the Company's share price and that past performance is not a guide to future returns. Therefore, your investment may be at risk and you may not get back the returns illustrated. Investors should not base their investment decisions solely upon the scenarios shown.
