

Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

ABN·AMRO Investment Solutions

Boston Common US Sustainable Equities

a Sub-Fund of ABN AMRO Funds

Share Class: A EUR Capitalisation (ISIN LU2036697717)

This Fund is managed by ABN AMRO Investment Solutions, an investment management company of the ABN Amro Group.

Objectives and Investment Policy

Boston Common US Sustainable Equities belongs to the category of Single Manager Funds.

The Fund seeks to increase the value of its assets over the long term by investing in transferable equity securities such as equities, other equity shares such as co-operative shares and participation certificates issued by, or warrants on transferable equity securities of, companies which are domiciled in or exercise the predominant part of their economic activity in North America.

Selection of investments will rely on a combination of financial criteria, as well as Environmental, Social & Governance criteria. The Fund promotes environmental and social characteristics and qualifies as product in accordance with article 8(1) of Regulation (EU) 2019/2088 on sustainability related disclosures in the financial services sector. The portfolio will be composed of issuers that are either leading in ESG best-practice or attractive due to their progression in ESG and seek to invest in companies whose products, services, or practices help provide solutions to climate change and renew the earth, as well as companies that help advance for all equality with social mobility, respect for human rights, and wellbeing (addressed through 3 thematic pillars: climate change – Inclusion & Human rights – health & community well-being). In that respect, the Fund manager has set-up a two-step process: (i) a Top-down sector research to identify the leading practices and companies in each sector, combines with (ii) a Bottom-up research that integrates comprehensive ESG criteria with financial research to identify Sustainable companies and companies with positive ESG trajectory where the potential engagement can boost the company even further. Companies must pass both the financial and ESG analysis before they can be included in the smaller universe of names the Fund manager would consider for purchase.

At least, the investible universe is reduced by 20% due to the implementation of sustainability criteria.

The Fund should comply with the exclusion rules of the Management Company applying to article 8 investment products. Next to that, the Fund manager is aiming to avoid investing in companies primarily engaged in the extraction exploration, production, manufacturing or refining of fossil fuels but may invest in companies that use fossil

fuel-based energy as an input within their operations or that distribute fossil fuels. The Fund manager will not invest in companies that derive more than 5% of their revenue from alcoholic beverages.

The extra-financial analysis covered 100% of the portfolio (cash is not covered by the ESG analysis).

The ESG coverage depends on reported informations from companies and constrained by companies disclosures. An unavailable informations would impact the ability to do proper ESG research.

The minimum asset allocation in such securities on a consolidated basis (direct and indirect investments) will be of 60% of the Fund's net assets. Moreover, the minimum Fund's investment in equity securities will be of 75% of the Fund's net assets.

The Fund may also invest in debt securities (such as fixed and floating rate bonds, Money Market Instruments, including High Yield bonds) up to 10% of its net assets.

The Fund may invest for maximum 10% of its net assets in funds that have been selected in accordance with a number of qualitative and quantitative criteria.

The Fund may invest up to 10% of its net assets in derivative instruments for investment, efficient portfolio management or hedging purposes.

This Fund is actively managed and is compared to the MSCI USA TR Net for performance and risk level indicator purposes. However, the reference to this index does not constitute any objective or limitation in the management and composition of the portfolio and the Fund does not restrain its universe to the index components. The index does not evaluate or include its constituents on the basis of environmental and/or social characteristics and is therefore not aligned with the ESG characteristics promoted by the Fund.

Therefore returns may deviate materially from the performance of the reference index.

The base currency of the Fund is USD.

Income is systematically reinvested.

Investors are able to redeem on a daily basis (on Luxembourg bank business days).

Risk and Reward Profile

The Risk and Reward profile of the Fund is based on the variations in value that an investment in this Fund has experienced. The classification of the Fund is a reasonably accurate reflection of the risk of the Fund over past market conditions. Historical data used in determining the profile is not a reliable indication for the risk inherent in any future circumstances and events that differ from what the Fund has undergone in the past.

The Risk and Reward profile of a Fund is an indicator but not a target or a guarantee and may shift over time.

The lowest risk category does not mean that the Fund is free of risk. Higher possible returns generally also imply higher possible risks.

Why is the Fund in this specific category?

Investments in equity include significant fluctuations in prices, due for instance to negative information about the issuer or market. Moreover, these fluctuations are often amplified in the short term.

Other risks materially relevant to the Fund which are not adequately captured by the indicator are described below:

Counterparty Risk: This risk is associated with the ability of a counterparty in a financial transaction to fulfil its commitments like payment, delivery and reimbursement.

Operational and Custody Risk: Some markets are less regulated than most of the international markets; hence, the services related to custody and liquidation for the Fund on such markets could be more risky.

Derivatives Risk: When investing in over the counter or listed derivatives, the Fund aims to hedge and/or to leverage the yield of its position. The attention of the investor is drawn to the fact that leverage increases the volatility of the Fund.

For more information on risks, please see the "Investment risks" section of the Fund's prospectus, which is available at www.abnamroinvestmentsolutions.com.

Charges

The charges you pay are used to pay the cost of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	5.00%
Exit charge	1.00%
<i>This is the maximum that might be taken out of your money before it is invested and before the proceeds of your investment are paid out.</i>	
Charges taken from the Fund over a year	
Ongoing charge	1.69%
Charges taken from the Fund under certain specific conditions	
Performance fee	none

The entry and exit charges shown are maximum figures. In some cases you might pay less - you can find this out from your financial adviser. The percentage of ongoing charges shown here is an estimate of the charges. This figure may vary from year to year. It excludes:

- Performance fees
- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another collective investment undertaking

In case of share conversion, the investors may be charged a maximum fee of 1.00%.

For more information about charges, please see the "Fees and Costs" section of the Fund's prospectus, which is available at www.abnamroinvestmentsolutions.com.

Past Performance

There is insufficient data to provide a useful indication of past performance.

The Share Class was launched in May 2020.
