

Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

ABN·AMRO Investment Solutions

EdenTree European Sustainable Equities

a Sub-Fund of ABN AMRO Funds

Share Class: A EUR Capitalisation (ISIN LU1481504865)

This Fund is managed by ABN AMRO Investment Solutions, an investment management company of the ABN Amro Group.

Objectives and Investment Policy

EdenTree European Sustainable Equities belongs to the category of Single Manager Funds.

The Fund seeks to increase the value of its assets over the long term by investing predominantly in transferable equity securities such as equities, other equity shares such as co-operative shares and participation certificates issued by, or warrants on transferable equity securities of, companies which are domiciled in or exercise the predominant part of their economic activity in Europe.

Selection of investments will rely on a combination of financial criteria, as well as Environmental, Social & Governance criteria. The Fund promotes environmental and social characteristics and qualifies as an investment product in accordance with article 8(1) of Regulation (EU) 2019/2088 on sustainability related disclosures in the financial services sector. The portfolio will be composed of issuers that are either leading in ESG best-practice or attractive due to their progression in ESG and seeks to avoid investment in certain areas such as companies which have a material involvement (more than 10% of their profits) in alcohol, nuclear power generation, tobacco and weapon production, gambling and publication of violent or explicit materials. Moreover, in compliance with UN PRI principles the Fund excludes direct investments in securities issued by companies involved in severe breach with the UN Global Compact principles. The Fund ESG approaches consisted of Research, then leads on to Screening, Engagement and Governance. The ESG analysis covered 100% of the portfolio. After reviewing the investment universe, 20% of companies are excluded based on SRI Criteria (ethical screens). All companies in the portfolio go through our in-house RI screening process prior to investment and all stocks are monitored once held in the portfolio.

As part of the Management Company's Sustainable Investment Policy, the Fund complies with the exclusion rules of article 8

investment product.

ESG coverage depends of reported informations from companies and constrained by companies disclosures. An unavailable informations would impact the ability to do proper ESG research.

The minimum asset allocation in such securities on a consolidated basis (direct and indirect investments) will be of 60% of the Fund's net assets (after deduction of the Fund's cash).

The Fund may also hold on an ancillary basis cash and cash equivalents including certificates of deposit and short-term deposits.

Investments in debt securities will not exceed 15% of its net assets.

Moreover, the minimum ownership of equities in companies established in countries of the European Economic Area having concluded a tax agreement with France including a clause on administrative cooperation for combating fraud and tax evasion will be at least 75% of the Fund's net assets.

This Fund is actively managed and is compared to the MSCI Europe TR Net for performance and risk level indicator purposes. However, the reference to this index does not constitute any objective or limitation in the management and composition of the portfolio and the Fund does not restrain its universe to the index components. The index does not evaluate or include its constituents on the basis of environmental and/or social characteristics and is therefore not aligned with the ESG characteristics promoted by the Fund. Therefore returns may deviate materially from the performance of the reference index.

The base currency of the Fund is EUR.

The minimum recommended holding term is 5 years.

Income is systematically reinvested.

Investors are able to redeem on a daily basis (on Luxembourg bank business days).

Risk and Reward Profile

The Risk and Reward profile of the Fund is based on the variations in value that an investment in this Fund has experienced. The classification of the Fund is a reasonably accurate reflection of the risk of the Fund over past market conditions. Historical data used in determining the profile is not a reliable indication for the risk inherent in any future circumstances and events that differ from what the Fund has undergone in the past.

The Risk and Reward profile of a Fund is an indicator but not a target or a guarantee and may shift over time.

The lowest risk category does not mean that the Fund is free of risk. Higher possible returns generally also imply higher possible risks.

Why is the Fund in this specific category?

Investments in equity include significant fluctuations in prices, due for instance to negative information about the issuer or market. Moreover, these fluctuations are often amplified in the short term.

The risk level of the Fund mainly reflects the market risks arising from investment in European Equities.

Other risks materially relevant to the Fund which are not adequately captured by the indicator are described below:

Operational and Custody Risk: Some markets are less regulated than most of the international markets; hence, the services related to custody and liquidation for the Fund on such markets could be more risky.

Small Cap, Specialised or Restricted Sectors Risk: Investing in small caps or specialised or restricted sectors is likely to be subject to a higher than average volatility. Smaller companies may find themselves unable to generate new funds to support their growth and development, they may lack vision in management, or they may develop products for new, uncertain markets.

Credit Risk: This risk relates to the ability of an issuer to honour its commitments; downgrades of an issue or issuer rating may lead to a drop in the value of bonds in which the Fund has invested.

Derivatives Risk: When investing in over the counter or listed derivatives, the Fund aims to hedge and/or to leverage the yield of its position. The attention of the investor is drawn to the fact that leverage increases the volatility of the Fund.

For more information on risks, please see the "Investment risks" section of the Fund's prospectus, which is available at www.abnamroinvestmentsolutions.com.

Charges

The charges you pay are used to pay the cost of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	5.00%
Exit charge	1.00%

This is the maximum that might be taken out of your money before it is invested and before the proceeds of your investment are paid out.

Charges taken from the Fund over a year

Ongoing charge	1.70%
----------------	-------

Charges taken from the Fund under certain specific conditions

Performance fee	none
-----------------	------

The entry and exit charges shown are maximum figures. In some cases you might pay less - you can find this out from your financial adviser. The percentage of ongoing charges shown here is based on expenses for the twelve month period ending 31st December 2021. This figure may vary from year to year. It excludes:

- Performance fees
 - Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another collective investment undertaking
- In case of share conversion, the investors may be charged a maximum fee of 1.00%.

For more information about charges, please see the "Fees and Costs" section of the Fund's prospectus, which is available at www.abnamroinvestmentsolutions.com.

Past Performance

Past performance is not a guide to future results.

The past performance shown here takes account of all charges and costs. The entry/exit charges are excluded from the calculation of past performance.

The Share Class was launched in January 2017.

Past performance has been calculated in EUR and is expressed as a percentage change in the Fund's Net Asset Value at each year end.

For more information on how to convert shares and the applicable rules, shareholders should refer to the prospectus (section on "Subscriptions, Conversion and Redemptions of Shares").

Specific Fund Information

This Key Investor Information document describes one share class of a sub-fund of SICAV AAF, while the prospectus, latest annual and semi-annual report are prepared for the entire SICAV AAF. Assets and liabilities of each sub-fund of the umbrella AAF are segregated by law, therefore, only the profit or loss of the sub-fund has an impact on your investment.

More share classes may be available for this Fund. For further details, investors should refer to the prospectus. For further information on the share classes that are distributed to the public in the investor's jurisdiction, investors should refer to www.abnamroinvestmentsolutions.com.

Tax Legislation

The Fund is subject to Luxembourg tax laws and regulations. Depending on the shareholder's country of residence, the Fund's Home State may have an impact on the personal tax position of the shareholder. For further details, the shareholder should consult a tax adviser.

Liability

ABN AMRO Investment Solutions, an investment management company of the ABN Amro Group may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the Fund's prospectus.
