# ABN·AMRO Investment Solutions

## Fund of Mandates Asia-Pacific Equities

a Sub-Fund of ABN AMRO Funds

### Share Class: C EUR Capitalisation (ISIN LU0756530183)

This Fund is managed by ABN AMRO Investment Solutions, an investment management company of the ABN Amro Group.

### Objectives and Investment Policy

Fund of Mandates Asia-Pacific Equities belongs to the category of Fund of Mandates.

The Fund seeks to increase the value of its assets over the long term by investing predominantly in transferable equity securities such as equities, other equity shares such as co-operative shares and participation certificates issued by, or warrants on transferable equity securities of, companies which are domiciled in or exercise the predominant part of their economic activity in the Asia Pacific region.

This Fund is actively managed and is compared to the MSCI AC Asia Pacific TR Net for performance and risk level indicator purposes. However, the reference to this index does not constitute any objective or limitation in the management and composition of the portfolio and the Fund does not restrain its universe to the index components.

Therefore returns may deviate materially from the performance of the reference index.

Choice of the underlying strategies and composition of the portfolio are not defined or restricted by the components of the index. The manager will not seek to limit the level of deviation of the portfolio in regards to the index but due to the Fund combining multiple active strategies on a discretionary basis, the risk and return profile of the Fund will be comparable to the index. The expected return of deviation between the fund and the benchmark (the tracking error) of the Fund will be moderate.

Moreover, the minimum ownership in equity securities will be of 75% of the Fund's net assets.

The base currency of the Fund is USD.

The minimum recommended holding term is 5 years.

Income is systematically reinvested.

Investors are able to redeem on a daily basis (on Luxembourg bank business days).

### Risk and Reward Profile

Lower risk

Higher risk

Potentially lower reward ← → Potentially higher reward

The Risk and Reward profile of the Fund is based on the variations in value that an investment in this Fund has experienced. The classification of the Fund is a reasonably accurate reflection of the risk of the Fund over past market conditions. Historical data used in determining the profile is not a reliable indication for the risk inherent in any future circumstances and events that differ from what the Fund has undergone in the past.

The Risk and Reward profile of a Fund is an indicator but not a target or a guarantee and may shift over time.

The lowest risk category does not mean that the Fund is free of risk. Higher possible returns generally also imply higher possible risks.

#### Why is the Fund in this specific category?

The risk level of this Fund is generally determined by its asset allocation, the investment markets and economic sectors, as well as the currency exposure.

The risk level of the Fund mainly reflects the market risks arising from investment in International Equities.

Other risks materially relevant to the Fund which are not adequately captured by the indicator are described below:

**Country-Specific Risk:** Investments in some countries (China, India, Indonesia, Japan, Saudi Arabia, and Thailand) involve risks linked to restrictions imposed on foreign investors and counterparties, higher market volatility and the risk of lack of liquidity for some lines of the portfolio. In addition, the repatriation by foreign investors of their share of net profits, capital and dividends may be restricted or require the approval of the government. The Company will only invest if it considers that the restrictions are acceptable. However, no guarantee can be given that additional restrictions will not be imposed in future.

**Emerging Market Risk:** Investing in emerging markets is likely to be subject to a higher than average volatility. In addition, some emerging markets offer less security than the majority of international developed markets. For this reason, services for portfolio transactions, liquidation and conservation on behalf of Funds invested in emerging markets may carry greater risk.

**Small Cap, Specialised or Restricted Sectors Risk:** Investing in small caps or specialised or restricted sectors is likely to be subject to a higher than average volatility. Smaller companies may find themselves unable to generate new funds to support their growth and development, they may lack vision in management, or they may develop products for new, uncertain markets.

**Operational and Custody Risk:** Some markets are less regulated than most of the international markets; hence, the services related to custody and liquidation for the Fund on such markets could be more risky.

**For more information on risks, please see the "Investment risks" section of the Fund's prospectus, which is available at [www.abnamroinvestmentsolutions.com](http://www.abnamroinvestmentsolutions.com).**

## Charges

The charges you pay are used to pay the cost of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	5.00%
Exit charge	1.00%
<i>This is the maximum that might be taken out of your money before it is invested and before the proceeds of your investment are paid out.</i>	
Charges taken from the Fund over a year	
Ongoing charge	1.07%
Charges taken from the Fund under certain specific conditions	
Performance fee	none

The entry and exit charges shown are maximum figures. In some cases you might pay less - you can find this out from your financial adviser.

The percentage of ongoing charges shown here is based on expenses for the twelve month period ending 31st December 2021. This figure may vary from year to year. It excludes:

- Performance fees
- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another collective investment undertaking

In case of share conversion, the investors may be charged a maximum fee of 1.00%.

**For more information about charges, please see the "Fees and Costs" section of the Fund's prospectus, which is available at [www.abnamroinvestmentsolutions.com](http://www.abnamroinvestmentsolutions.com).**

## Past Performance

Past performance is not a guide to future results.

The past performance shown here takes account of all charges and costs. The entry/exit charges are excluded from the calculation of past performance.

The Share Class was launched in October 2013.

Past performance has been calculated in EUR and is expressed as a percentage change in the Fund's Net Asset Value at each year end.
