

## Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

# ABN·AMRO Investment Solutions

## Global Sustainable Equities

a Sub-Fund of ABN AMRO Funds

### Share Class: C EUR Capitalisation (ISIN LU0756527049)

This Fund is managed by ABN AMRO Investment Solutions, an investment management company of the ABN Amro Group.

#### Objectives and Investment Policy

Global Sustainable Equities belongs to the category of Single Manager Funds.

The Fund seeks to increase the value of its assets over the long term by investing predominantly in transferable equity securities such as equities, other equity shares such as co-operative shares and participation certificates issued by, or warrants on transferable equity securities of, companies which are located worldwide.

Selection of investments will rely on a combination of financial criteria, as well as Environmental, Social & Governance criteria.

The Fund promotes environmental and social characteristics and qualifies as an investment product in accordance with article 8(1) of Regulation (EU) 2019/2088 on sustainability related disclosures in the financial services sector. The portfolio will be composed of issuers that are leading in ESG best-practice.

The eligible universe is determined by the combination of exclusion filters and selectivity approach (best in class).

The exclusion filters exclude companies and activities that might have a negative effect on society or environment as well as to exclude weapons, tobacco producers and sellers, GMOs, palm oil, gambling, pornography, cannabis, arctic drilling, shale gas, oil sands, coal mining, fur and specialty leather, animal testing (subject to certain thresholds). Companies involved in serious human rights violation and environmental damage are also excluded. In the other hands, the Best in class approach or selectivity identifies companies that manage their ESG risk better than their peer group. The ESG Risk score, on which the "best in class" filter is based, evaluates companies on Material ESG issues (MEI).

Therefore the Investment Manager retains companies which ESG Risk Score, calculated by Sustainalytics, is among the best 50% of companies rated in each sub-sector.

The extra-financial analysis covered 100% of the portfolio. The manager

uses a selective approach that screens out at least 20% of the investment universe. The ESG coverage depends of reported informations from companies and constrained by companies disclosures. An unavailable informations would impact the ability to do proper ESG research.

The minimum asset allocation in such securities on a consolidated basis (direct and indirect investments) will be of 60% of the Fund's net assets.

Moreover, the minimum Fund's investment in equity securities will be of 75% of the Fund's net assets.

Investments in debt securities will not exceed 15% of its net assets.

The Fund may invest for maximum 10% of its net assets in funds that have been selected in accordance with a number of qualitative and quantitative criteria.

This Fund is actively managed and is compared to the MSCI World TR Net for performance and risk level indicator purposes. However, the reference to this index does not constitute any objective or limitation in the management and composition of the portfolio and the Fund does not restrain its universe to the index components. The index does not evaluate or include its constituents on the basis of environmental and/or social characteristics and is therefore not aligned with the ESG characteristics promoted by the Fund.

Therefore returns may deviate materially from the performance of the reference index.

The Fund may recourse to non-complex positions on derivative financial instruments or to derivative financial instruments used for hedging purposes only.

The base currency of the Fund is EUR.

Income is systematically reinvested.

Investors are able to redeem on a daily basis (on Luxembourg bank business days).

#### Risk and Reward Profile

The Risk and Reward profile of the Fund is based on the variations in value that an investment in this Fund has experienced. The classification of the Fund is a reasonably accurate reflection of the risk of the Fund over past market conditions. Historical data used in determining the profile is not a reliable indication for the risk inherent in any future circumstances and events that differ from what the Fund has undergone in the past.

The Risk and Reward profile of a Fund is an indicator but not a target or a guarantee and may shift over time.

The lowest risk category does not mean that the Fund is free of risk. Higher possible returns generally also imply higher possible risks.

#### Why is the Fund in this specific category?

Investments in equity include significant fluctuations in prices, due for instance to negative information about the issuer or market. Moreover, these fluctuations are often amplified in the short term.

The risk level of the Fund mainly reflects the market risks arising from investment in European Equities.

Other risks materially relevant to the Fund which are not adequately captured by the indicator are described below:

**Country-Specific Risk:** Investments in some countries (China, India, Indonesia, Japan, Saudi Arabia, and Thailand) involve risks linked to restrictions imposed on foreign investors and counterparties, higher market volatility and the risk of lack of liquidity for some lines of the portfolio. In addition, the repatriation by foreign investors of their share of net profits, capital and dividends may be restricted or require the approval of the government. The Company will only invest if it considers that the restrictions are acceptable. However, no guarantee can be given that additional restrictions will not be imposed in future.

**Emerging Market Risk:** Investing in emerging markets is likely to be subject to a higher than average volatility. In addition, some emerging markets offer less security than the majority of international developed markets. For this reason, services for portfolio transactions, liquidation and conservation on behalf of Funds invested in emerging markets may carry greater risk.

**Small Cap, Specialised or Restricted Sectors Risk:** Investing in small caps or specialised or restricted sectors is likely to be subject to a higher than average volatility. Smaller companies may find themselves unable to generate new funds to support their growth and development, they may lack vision in management, or they may develop products for new, uncertain markets.

**Operational and Custody Risk:** Some markets are less regulated than most of the international markets; hence, the services related to

custody and liquidation for the Fund on such markets could be more risky.

**For more information on risks, please see the "Investment risks" section of the Fund's prospectus, which is available at [www.abnamroinvestmentsolutions.com](http://www.abnamroinvestmentsolutions.com).**

## Charges

The charges you pay are used to pay the cost of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	5.00%
Exit charge	1.00%
<i>This is the maximum that might be taken out of your money before it is invested and before the proceeds of your investment are paid out.</i>	
Charges taken from the Fund over a year	
Ongoing charge	0.86%
Charges taken from the Fund under certain specific conditions	
Performance fee	none

The entry and exit charges shown are maximum figures. In some cases you might pay less - you can find this out from your financial adviser. The percentage of ongoing charges shown here is based on expenses for the twelve month period ending 31st December 2020. This figure may vary from year to year. It excludes:

- Performance fees
  - Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another collective investment undertaking
- In case of share conversion, the investors may be charged a maximum fee of 1.00%.

**For more information about charges, please see the "Fees and Costs" section of the Fund's prospectus, which is available at [www.abnamroinvestmentsolutions.com](http://www.abnamroinvestmentsolutions.com).**

## Past Performance

Past performance is not a guide to future results.

The past performance shown here takes account of all charges and costs. The entry/exit charges are excluded from the calculation of past performance.

The Share Class was launched in March 2013.

Past performance has been calculated in EUR and is expressed as a percentage change in the Fund's Net Asset Value at each year end.
