ABN·AMRO Investment Solutions

Insight Euro Sustainable Corporate Bonds

a Sub-Fund of ABN AMRO Funds

Share Class: A EUR Capitalisation (ISIN LU1165274488)

This Fund is managed by ABN AMRO Investment Solutions, an investment management company of the ABN Amro Group.

Objectives and Investment Policy

Insight Euro Sustainable Corporate Bonds belongs to the category of Single Manager Funds.

The Fund seeks to increase the value of its assets over the medium term by investing indirectly in euro denominated investment grade corporate bonds and/or other corporate debt instruments. The minimum asset allocation in such securities will be of 60% of the Fund's net assets.

Selection of investments will rely on a combination of extra-financial (Environment, Social and Governance) and financial criteria. The Fund promotes environmental and social characteristics and qualifies as an investment product in accordance with article 8(1) of Regulation (EU) 2019/2088 on sustainability related disclosures in the financial services sector. The portfolio will be composed of issuers that are either leading in ESG best-practice or attractive due to their progression in ESG. The eligible universe is determined by the combination of exclusion filters and selectivity approach (best in class). In that respect, the ESG process is based on the following criteria: ESG ratings (based on Insight proprietary ESG ratings), Norms-based (UN Global Compact violators are excluded) and a screening process.

the Fund will comply with the exclusions rules of the Fund manager applicable to article 8 investment products. Next to the Management Company's exclusion lists, the Fund will not invest in companies that have a strategic involvement in Alcohol production.

100% of the bonds in the portfolio receives extra-financial analysis except cash and cash funds. The ESG coverage depends of reported informations from companies and constrained by companies

disclosures. An unavailable informations would impact the ability to do proper ESG research.

In addition, the Fund may invest up to 40% of its total net assets in other debt instruments or securities.

Selection of investments will rely on a combination of extra-financial (Environment, Social and Governance) and financial criteria.

To achieve its investment objective, the Fund may invest in derivatives for exposure and hedging purposes.

After hedging, the exposure to currencies other than the euro may be minimised.

This Fund is actively managed and is compared to the iBoxx Euro Corporates for performance and risk level indicator purposes. However, the reference to this index does not constitute any objective or limitation in the management and composition of the portfolio and the Fund does not restrain its universe to the index components. The index does not evaluate or include its constituents on the basis of environmental and/or social characteristics and is therefore not aligned with the ESG characteristics promoted by the Fund.

Therefore returns may deviate materially from the performance of the reference index.

The base currency of the Fund is EUR.

Income is systematically reinvested.

Investors are able to redeem on a daily basis (on Luxembourg bank business days).

Risk and Reward Profile

The Risk and Reward profile of the Fund is based on the variations in value that an investment in this Fund has experienced. The classification of the Fund is a reasonably accurate reflection of the risk of the Fund over past market conditions. Historical data used in determining the profile is not a reliable indication for the risk inherent in any future circumstances and events that differ from what the Fund has undergone in the past.

The Risk and Reward profile of a Fund is an indicator but not a target or a guarantee and may shift over time.

The lowest risk category does not mean that the Fund is free of risk. Higher possible returns generally also imply higher possible risks.

Why is the Fund in this specific category?

The risk level of this Fund is generally determined by its asset allocation, the investment markets and economic sectors, as well as the currency exposure.

The risk level of the Fund mainly reflects the market risks arising from investment in European debt Market.

Other risks materially relevant to the Fund which are not adequately captured by the indicator are described below:

Counterparty Risk: This risk is associated with the ability of a counterparty in a financial transaction to fulfil its commitments like payment, delivery and reimbursement.

Credit Risk: This risk relates to the ability of an issuer to honour its commitments; downgrades of an issue or issuer rating may lead to a drop in the value of bonds in which the Fund has invested.

Derivatives Risk: When investing in over the counter or listed derivatives, the Fund aims to hedge and/or to leverage the yield of its position. The attention of the investor is drawn to the fact that leverage increases the volatility of the Fund.

For more information on risks, please see the "Investment risks" section of the Fund's prospectus, which is available at www.abnamroinvestmentsolutions.com.
